PROFESSIONAL SUMMARY

A Frontend Developer with a solid foundation in React and TypeScript, specializing in crafting smooth user interface animations and delivering pixel-perfect implementation from Figma designs. Experienced in building independent Full-stack projects. Short-term goal is to sharpen and elevate Backend capabilities to fully master product development end-to-end. Long-term commitment to evolving into a Technical Expert, becoming a core contributor directly driving the company's growth.

WORK EXPERIENCE

SR GROUPS

May 2025 - Present

Frontend Developer

Bullbit Cryptocurrency Exchange Project (Oct 2025 – Present)

- **Description:** High-performance Crypto/Web3 exchange; participated in feature development, event pages, and system-wide UI upgrades.
- **Tech Stack:** React 19, Vite 6, TypeScript, Zustand, React Query v5, MUI v7, Tailwind CSS, Framer Motion.
- **Key Responsibilities & Achievements:**
 - **Feature Development:** Developed interfaces and integrated APIs for core feature modules, including Leaderboard, Partner, and Security-Center.
 - **Landing Pages & Events:** Designed layouts and implemented high-converting Landing Pages and Event pages with engaging motion effects using Framer Motion.
 - **UI v2 Comprehensive Upgrade:** Collaborated in refactoring and updating the platform's user interface, ensuring pixel-perfect alignment with Figma designs.
 - **Web3 Infrastructure Research:** Contributed to the UI development for Smart Wallet and Account Abstraction features; proactively researched passwordless authentication (Passkey) workflows.
 - **Maintenance & Optimization:** Handled user feedback, conducted debugging, resolved UI issues, and optimized rendering performance for assigned modules.

Outsourcing Projects (Advanced Web SPA) (May 2025 – Oct 2025)

- **Description:** Developed Single Page Applications featuring real-time communication and high security for clients.
- **Tech Stack:** React 18, TypeScript, Redux Toolkit, Context API, MUI v5, SignalR, Framer Motion.
- **Key Responsibilities & Achievements:**
 - **Responsive UI Development:** Built responsive interfaces, successfully transforming complex Figma concepts into clean source code with smooth Framer Motion animations.
 - **Real-time Connection Setup:** Integrated SignalR for instant real-time data streaming and dynamic UI updates.
 - **Custom HTTP Client:** Customized Fetch API to handle JWT tokens and implement optimized forms.

PERSONAL PROJECTS

The Little Coder (thelittlecoder.dev) | Frontend Developer

- **Tech Stack:** Next.js 16 (App Router), React 19, TypeScript, Tailwind v4, Zustand, Framer Motion, @dnd-kit, MDX.
- **Key Responsibilities & Achievements:**
 - **Creative UI Development:** Built a creative portfolio/blog website with a customizable operating system simulator; utilized @dnd-kit and Zustand to manage drag-and-drop actions and high-performance tab switching.
 - **Static CMS Architecture:** Engineered an automated compilation system to render MDX/Markdown files; integrated Shiki for syntax highlighting and Framer Motion for seamless animations.
 - **Performance & SEO Optimization:** Monitored Core Web Vitals via Vercel Speed Insights and compressed assets with Sharp, achieving maximum page speed and highly optimized SEO rankings.
